Summary

Motivated and detail-oriented **Front-End Developer** with 1.5 years of hands-on experience at **Rexos Company in Damascus**. Specialized in creating responsive and modern web interfaces using technologies such as:

- **HTML, CSS, JavaScript**
- **MudBlazor, C#**
- **React.js**

Successfully built a personal portfolio using React.js, and developed multiple login pages and front-end components.

Previous experience includes **WordPress development**, where I worked on several complete website projects.

Proficient in **basic Figma** design for UI/UX wireframes and interface layouts. As a **freelancer**, I collaborated on the *Al-Haditha Medical Project*, delivering tailored front-end solutions that aligned with the client's vision.

Skill Highlights

- **Languages & Tools:**
HTML, CSS, JavaScript, C#,
MudBlazor, React.js
- **Design Tools:** Figma, WordPress
- **Other:** Responsive Design,
UI Implementation
- **Version Control:** Git

Education

- Information Technology Engineering (ITE) Fourth year : **Syrian virtual University (SVU)**
- Economics Third year : **Damascus University**
